DETAILED ACTION

Claims 1-38 are pending in this application and subject to the following restriction.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-26, drawn to a method of expressing an immunotoxin in *Pichia pastoris* by methanol induction.

Group II, 27-38, drawn to a method of purifying a non-glycosylated immunotoxin using a solution containing the non-glycosylated immunotoxin.

PCT rules teach that “Any international application must relate to one invention only or to a group of inventions so linked as to form a single general inventive concept (PCT Article 3(4)(iii) and 17(3)(a), PCT Rule 3.1, and 37 CFR 1.475).” PCT Rule 13.2 requires that unity of invention exists only when the shared same or corresponding technical feature is a contribution over the prior art. Groups I and II comprise distinct process steps and therefore do not comprise the same “special technical feature” and hence do not share a single general inventive concept because they lack the same or corresponding technical feature. Group I is drawn to a method of expressing an immunotoxin by use of a cell comprising nucleic acid encoding the immunotoxin and subjecting the cell to methanol induction whereas Group II does not require the cells or the process steps. The methods are non-overlapping.

Art Unit: 1633

Applicant is reminded that upon cancellation of claims to a non-elected inventions, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
